

NOMAD NIBS

Digital Brand & E-commerce Project

Academic Project | 2026

1. Project Overview

Nomad Nibs is an academic digital-brand and e-commerce project built around a digital-first snack brand offering palm-oil-free and vegan chips. The project combines brand positioning, product presentation, digital marketing principles, consumer-focused communication, and an online purchase experience.

2. Project Objective

The objective of the project was to translate a differentiated snack-product concept into a cohesive digital brand presence and e-commerce experience. The website serves as the primary digital touchpoint for presenting the brand, communicating its value proposition, and showcasing its products.

3. Key Project Components

Brand Concept: Conceptualised a digital-first snack brand positioned around palm-oil-free and vegan chips.

Brand Positioning: Developed the digital presence around a clear product proposition and customer-focused brand communication.

E-commerce Website: Created an online storefront focused on product presentation, navigation, and customer experience.

Digital Marketing: Applied digital marketing principles to structure website content and communicate the product proposition.

Consumer Focus: Applied consumer behaviour and branding concepts to present product benefits in a customer-centric manner.

Digital Execution: Connected marketing concepts with practical website and content execution to create a unified digital brand experience.

4. Skills & Concepts Applied

Brand Management • Digital Marketing • Consumer Behaviour • E-commerce • Product Positioning • Customer Experience • Website Content & Presentation • Digital Brand Strategy

5. Project Outcome

The project resulted in a functional digital storefront for Nomad Nibs, demonstrating the ability to convert a product concept into a structured digital brand experience while integrating marketing and e-commerce principles.
